JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Friday - 8 December 1972

1. [] Received a call from George Murphy, Joint Committee on Atomic Energy staff. He said Colonel Seymour Shwiller, of the Committee staff, had asked him to make a request to the Agency for a copy of NIE 11-14 on nonstrategic forces in Eurasia. I told Murphy that providing the staff with estimates other than those which had been authorized for release to the Committee by the Director on the recommendation of USIB pose a fairly complicated procedural question and I asked if there wasn't some way we could handle this on the basis of a briefing instead. Murphy called back later to say he had talked further with Colonel Shwiller who said he had been briefed on the subject matter involved and rather than to raise the issue on transmittal of the NIE he would cancel the request. I told Murphy if Shwiller should decide later on that he would like further information on the subject, to let us know.

2. [] Hand-carried to John Goldsmith, Senate Armed Services Committee staff, a paper on [] Goldsmith had requested this during his recent trip to Southeast Asia and asked if we would thank our people in the field for making this available to him. He added that this would round out his file of information which hopefully it will be unnecessary to refer to if the present peace negotiations are successfully completed.

3. [] Left with Senator Symington's office a letter to the Senator from Mr. Maury.

25X1 4. [] Called Jay Sourwine, Chief Counsel,
Senate Internal Security Subcommittee, and (based upon information supplied
25X1 [] told him that we had no record on either the
individual or the events which he had called us about (i. e., kidnapping of
CIC General Stanley Dubek -- see Journal of 5 December 1972). Sourwine
said he had received a similar report from the Department of Army.

Sourwine called and said he was evaluating a report involving one
O. E. Boline and asked if we might have any information which we might
be able to share with him. I told him we would check our files.
